PROFESSIONAL PROFILE

Mechatronics engineer with a background in industrial automation, IoT, cloud computing and artificial intelligence. With knowledge in Siemens PLC, Python, Google Cloud, data analysis and development of technological solutions. Interest in automation, applied AI and cloud technologies.

TECHNICAL SKILLS

- Python, C, C++, C#, SQL Server
- Google Cloud Platform (GCP)
- Siemens PLC and industrial automation
- IoT, MQTT, ESP8266 and Arduino
- Machine Learning and Data Analytics
- Power BI
- Basic Kubernetes
- Git and GitHub
- AutoCAD Electrical, Autodesk Inventor and Siemens NX
- Profibus and Ethernet/IP
- Microsoft Excel, Word, and PowerPoint (Advanced Level)

FEATURED PROJECTS

- **AI model for cement strength prediction:** Development of an artificial intelligence model using chemical variables to predict cement strength on key days.
- **IoT system for remote monitoring:** Implementation of IoT solutions using ESP8266, MQTT and cloud platforms for monitoring and data analysis.
- **Automation with Siemens PLC:** Development of a simulated industrial system with control of motors, valves and gates, including HMI programming.
- **Automated candy dispenser:** CAD design, P&ID diagrams and dosing system automation to optimize the packaging process.

EDUCATION

Engineer – Instituto Tecnológico Metropolitano (ITM)

Medellín, Colombia — July 2024

- Training in industrial automation with Siemens PLC.
- Knowledge in CAD/CAM/CAE design applied to the development of mechatronic systems.

- Foundations in programming, electronics, embedded systems and technological integration.

Academic Baccalaureate – Ramón Munera Lopera Educational Institution 2016

- Graduated with honors of academic excellence and scholarship by Sapiencia.

CERTIFICATIONS

- Professional Certificate in Cloud Engineering – Google Cloud (2026)
- Practical competencies in Terraform, cloud networking, load balancing, and development environments in GCP
- Certificate in Artificial Intelligence Intermediate Level – MinTIC and IU Training (2025)
- Automating Cybersecurity Tasks with Python – Google/Coursera (2025)
- Diploma in Internet of Things (IoT) – ITM (2024)
- Introduction to Cybersecurity – Cisco (2024)
- Power BI – Netzun (2025)
- EF SET English Certificate B1 (2025)
